

## London/Milan The Dual City Summer Session

Please find here below a brief overview on how the housing service works at Domus Academy.

The school will support you in finding a temporary accommodation for your stay in Milan by providing information and advice in order help you find a suitable place to live. You can also request to be added to the “DA students housing network” which counts many students presently studying at Domus Academy. Through this network you will be able to get in touch with other students who are leaving their flats or are interested in sharing one. You will also be constantly updated about any available solution offered by private landlords that contact the school directly.

The school doesn't provide neither apartments/rooms nor flatmates but only gives guidance and support.

Once here in Milan, if requested, the housing service will help you in check the lease before signing it (which is always edited in Italian) and you'll be guided and suggested in anything related to your rent.

Here below the Accommodation Form.

Please, fill it in completely and email it to the following address:

[sabrina.dipietrantonio@domusacademy.it](mailto:sabrina.dipietrantonio@domusacademy.it)

The form is requested if you want to get the housing support.

As soon as the housing service receives it, a temporary accommodation will be optioned for you and you will also be included in the “DA students housing network”.
